

New York City | NOOSPHERE Arts' Residency Award

We are pleased to offer an annual grant program in collaboration with Mothership NYC: Once a year, we provide a *month-long residency free of charge* to one talented international artist and/or curator. Selected by a committee of peers, the award winner will spend their time on board Mothership NYC developing a creative project for presentation to the NYC audience under the aegis of [NOOSPHERE Arts](#).

Dedicated to bringing art from elsewhere to New York, [NOOSPHERE Arts](#)' all-volunteer artists' team keeps seeking new ways to accomplish our goal: to offer the U.S. audience access to current art from other countries and to bring creative people together for artistic cross-pollination and transnational collaborations.

Ever since our inception in 2011, [NOOSPHERE Arts](#) has repeatedly worked with [Mothership NYC](#) to stage public arts events in Brooklyn. Located in Greenpoint, this community of international creatives is a combined live-work space and presentation arena with a mission very much in line with our organization's: "to support and promote artists across multiple disciplines through residencies, public shows and collaborative opportunities; build sustainable transnational artist networks; and help retain creative forces in New York City." (www.mothership.nyc)

The current application period runs throughout the month of January until February 4, 2019.
